- <https://www.menti.com/csb5wsjst2>

Power BI Week 2

Monday 25th Jan 2021

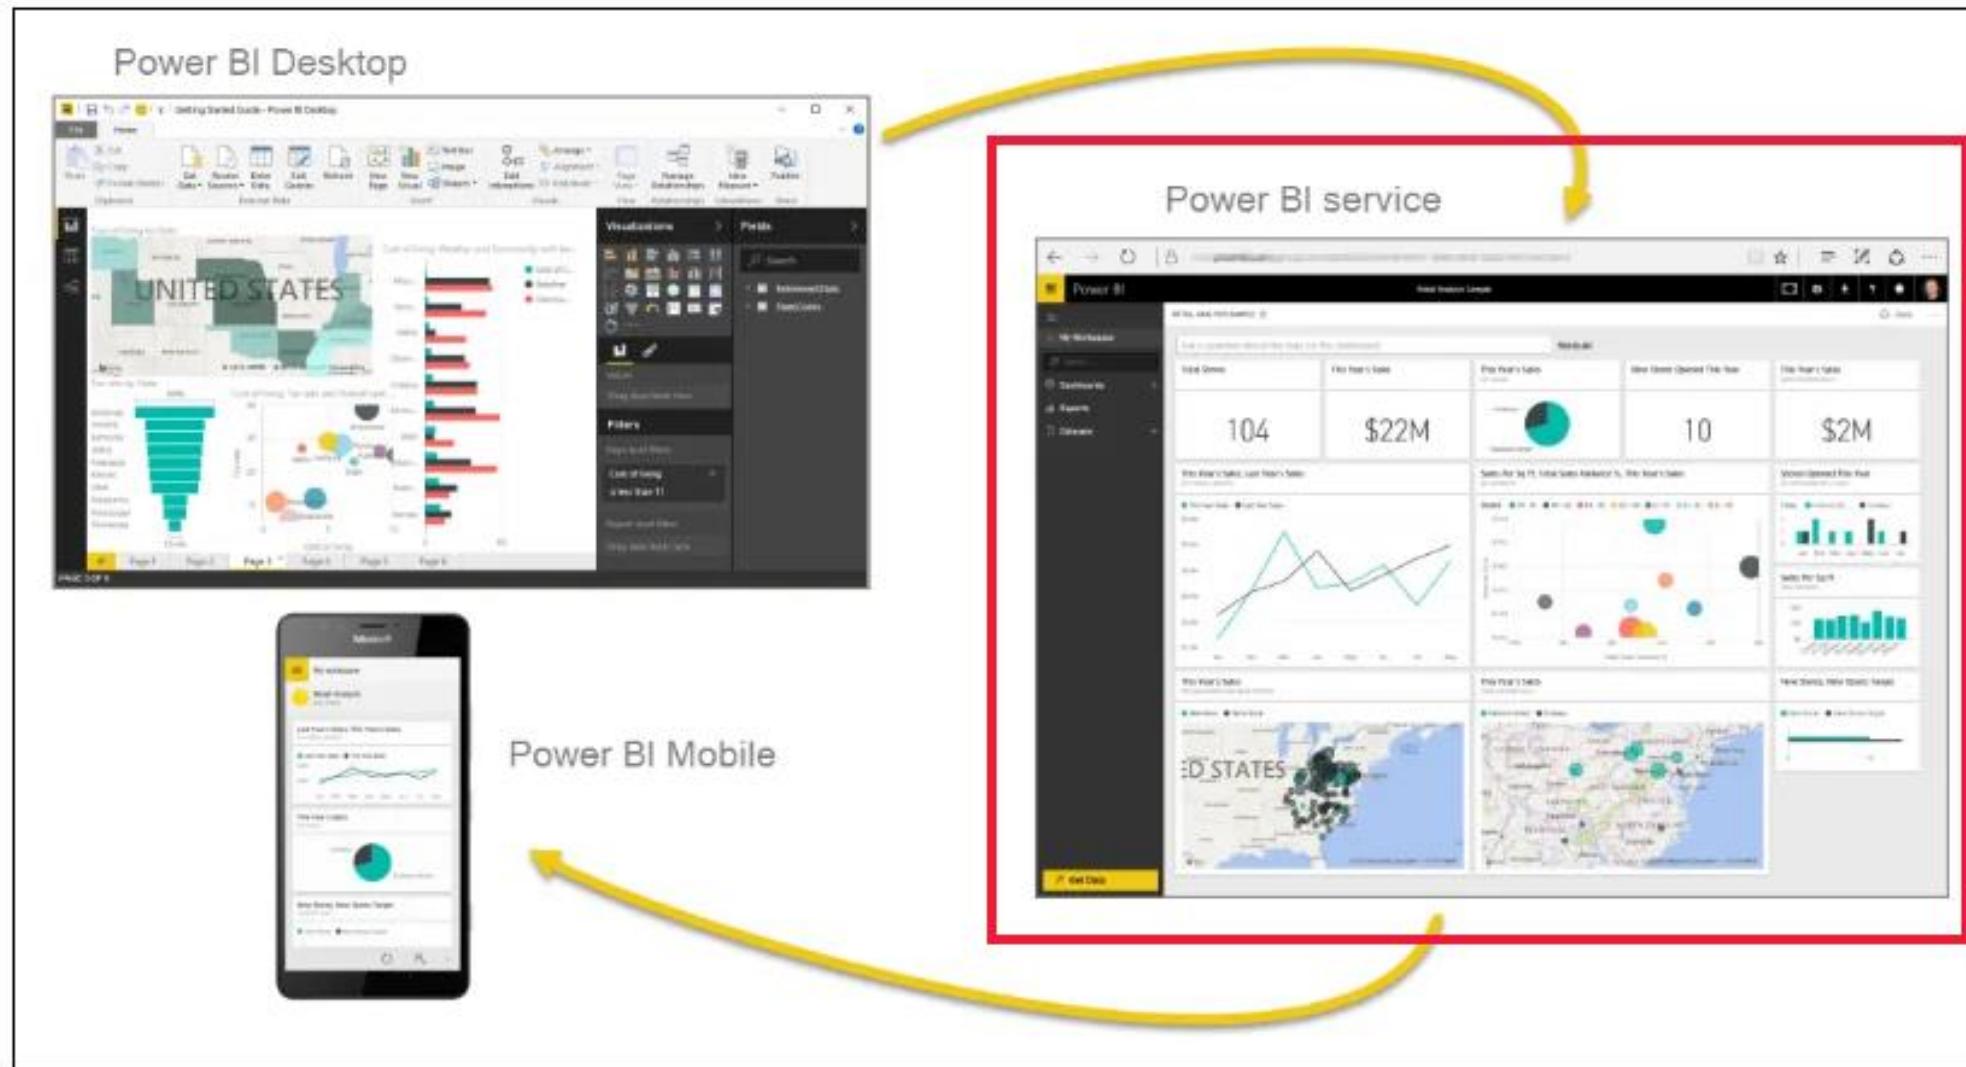

- 1st lets finish of Lesson 1
- Complete Power BI report from Lesson 1
- Sign up & login for Power BI Service account (needs a Microsoft a/c)
- Publish report to the Power BI service
- Explain what is Power BI Service basics
- Navigate report in Power BI Service
- Back to get & prepare data with Power Query Editor

Complete Power BI report from Lesson 1

- Open blog <https://docs.microsoft.com/en-us/power-bi/create-reports/desktop-excel-stunning-report>
- Demo a step
- Show finished report
- Save Power BI desktop report as .pbix locally
- Conrad demo

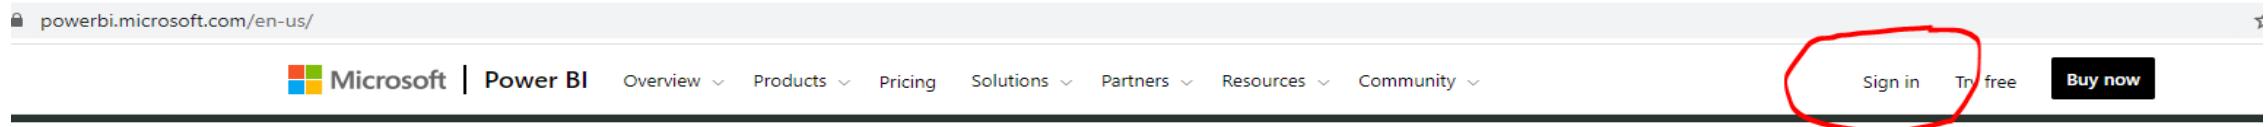

What is Power BI ?

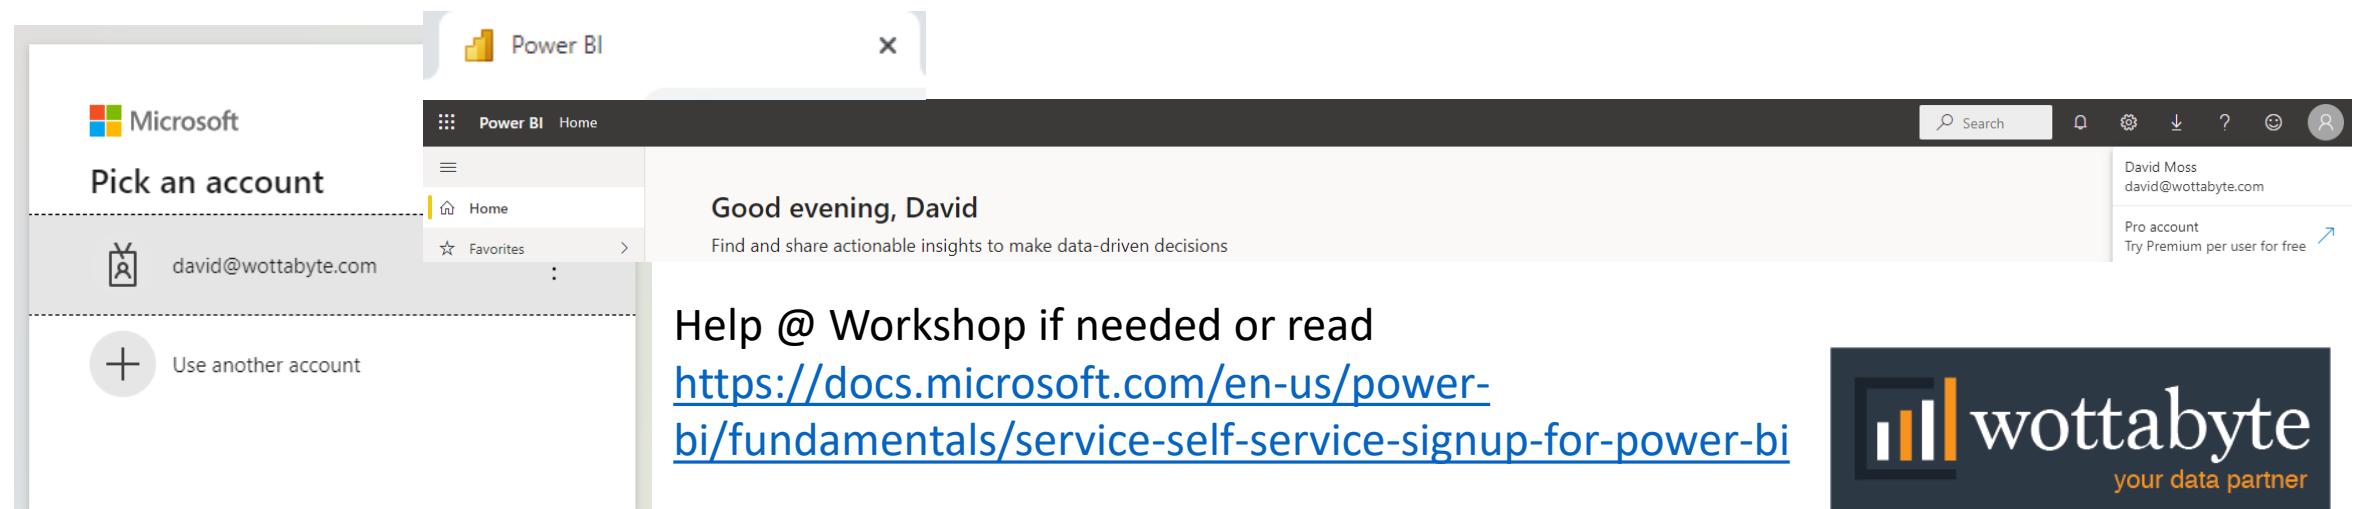

Create a Power BI Service account

Sign up & login with Power BI account (needs a Microsoft a/c)

The screenshot shows the Microsoft Power BI website at powerbi.microsoft.com/en-us/. The navigation bar includes links for Microsoft, Power BI, Overview, Products, Pricing, Solutions, Partners, Resources, Community, Sign in (which is circled in red), Try free, and Buy now.

- Goto www.powerbi.com and click 'Sign in'. Free license.
- Work or school a/c ? If none then create a Microsoft a/c but cannot use a gmail. <https://docs.microsoft.com/en-us/power-bi/consumer/end-user-sign-in>
- If fails we can help you during the workshop later this eve.
- Show Power BI Service Home page My workspace is blank.

The screenshot shows the Power BI Service Home page. A modal window titled "Pick an account" is open, showing the email "david@wottabyte.com". The main page displays a "Good evening, David" greeting and the message "Find and share actionable insights to make data-driven decisions". Below this, there is a note: "Help @ Workshop if needed or read <https://docs.microsoft.com/en-us/power-bi/fundamentals/service-self-service-signup-for-power-bi>". On the right side, the user profile shows "David Moss" and "david@wottabyte.com" with a "Pro account" status and a "Try Premium per user for free" button. The wottabyte logo is visible in the bottom right corner.

Workshop this eve at 21:00 – 22:00 GMT

Power BI Week 2

Monday 25th Jan 2021

Use Power Query Editor to get data & prepare your data

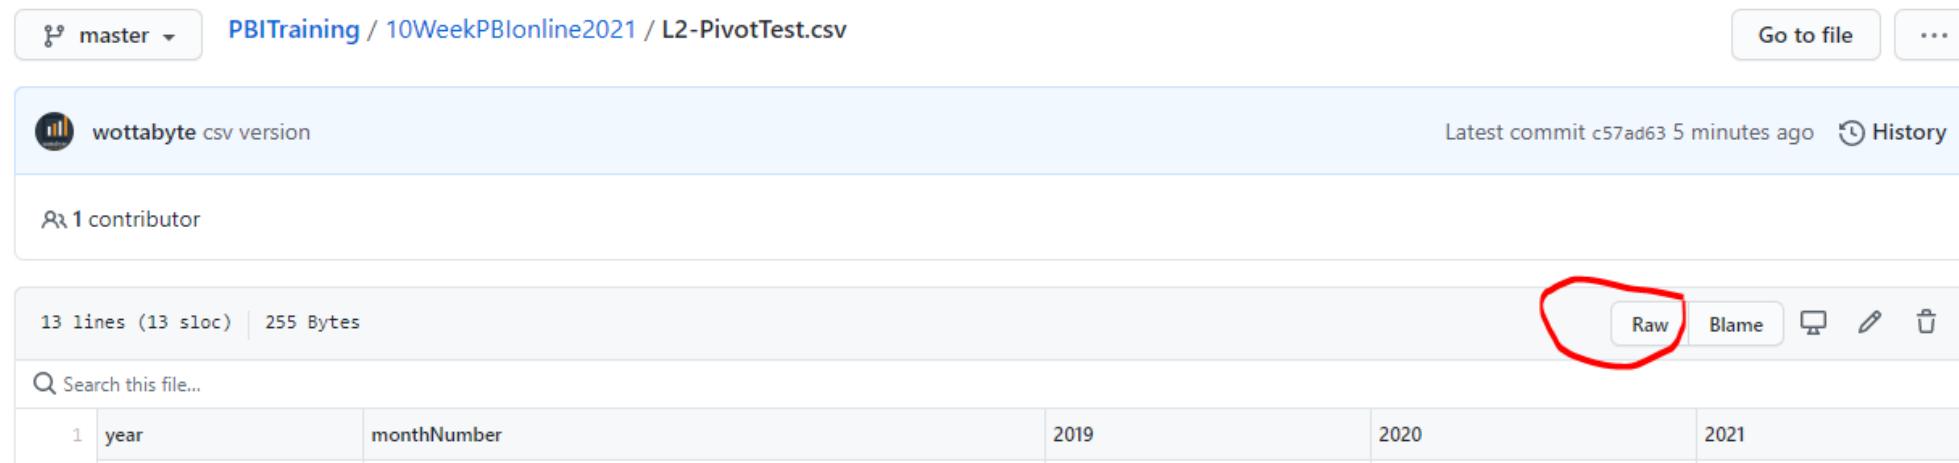

- Back to get & prepare data with Power Query Editor
- From Power BI Desktop open Power Query Editor...how ?
- Show PQE features
- Power Query Language = M
- BTW it's the same in Excel
- Get data & transform as demo in Learr

Power BI Week 2

Power Query Editor: Capitalize & UNpivot data demo

- Csv > raw ? See url :
<https://github.com/wottabyte/PBITraining/tree/master/10WeekPBlonline2021>
- PQE use Web
- Lowercase then capitalize
- Pivot years
- Close & Apply

The screenshot shows a GitHub file page for `L2-PivotTest.csv`. The page includes navigation buttons for 'master' branch, 'Go to file', and an ellipsis. Below the file name, it shows the commit history with one commit by 'wottabyte' and a 'History' link. It also indicates 1 contributor. The file statistics show 13 lines (13 sloc) and 255 Bytes. A search bar is present. At the bottom, there is a preview of the CSV data:

1	year	monthNumber	2019	2020	2021
---	------	-------------	------	------	------

A red circle highlights the 'Raw' button in the file operations menu at the bottom right.

Power BI Week 3

Intro to data modelling

Introduction to Data Modeling

- Benefits of a good data model:
 - Accurate reports.
 - Faster data exploration.
 - Simpler aggregations.
 - Easier to maintain.

Power BI Week 3

Joins & Relationships

Microsoft
Power Platform

Joins and Relationships

The screenshot shows the Power BI Data Model interface. On the left, the 'Employee' table is displayed with columns: Category Name, City, Employee Name, EmployeeID, Product Group, StandardCost, State, and Category Name Hierarchy. On the right, the 'Sales' table is shown with columns: Amount, CountryID, EmployeeID, Freight, Freight_1, ListPrice, Order Date, OrderDate, and OrderQty. A relationship is being managed between the Employee table and the Sales table. A red arrow points from the 'Category Name Hierarchy' column in the Employee table to the 'CountryID' column in the Sales table. The relationship type is 1 to *.

Manage relationships

Active	From: Table (Column)	To: Table (Column)
<input type="checkbox"/>	Country (Country)	CountryName (Country)
<input checked="" type="checkbox"/>	Country (Country)	Territory (Country)
<input checked="" type="checkbox"/>	Customers (ID)	SalesVals (ID)
<input checked="" type="checkbox"/>	Order (OrderDate)	Sales (OrderDate)

Power BI Week 3

Star Schemas

Star Schemas

- Tables are classified as dimension or fact tables.
 - Dimension: Describes business entities.
 - Fact: Store observations or events.

Components of a data model – Fact Table

Fact Table

- Contains **Measures** (or items to be aggregated) of a business process

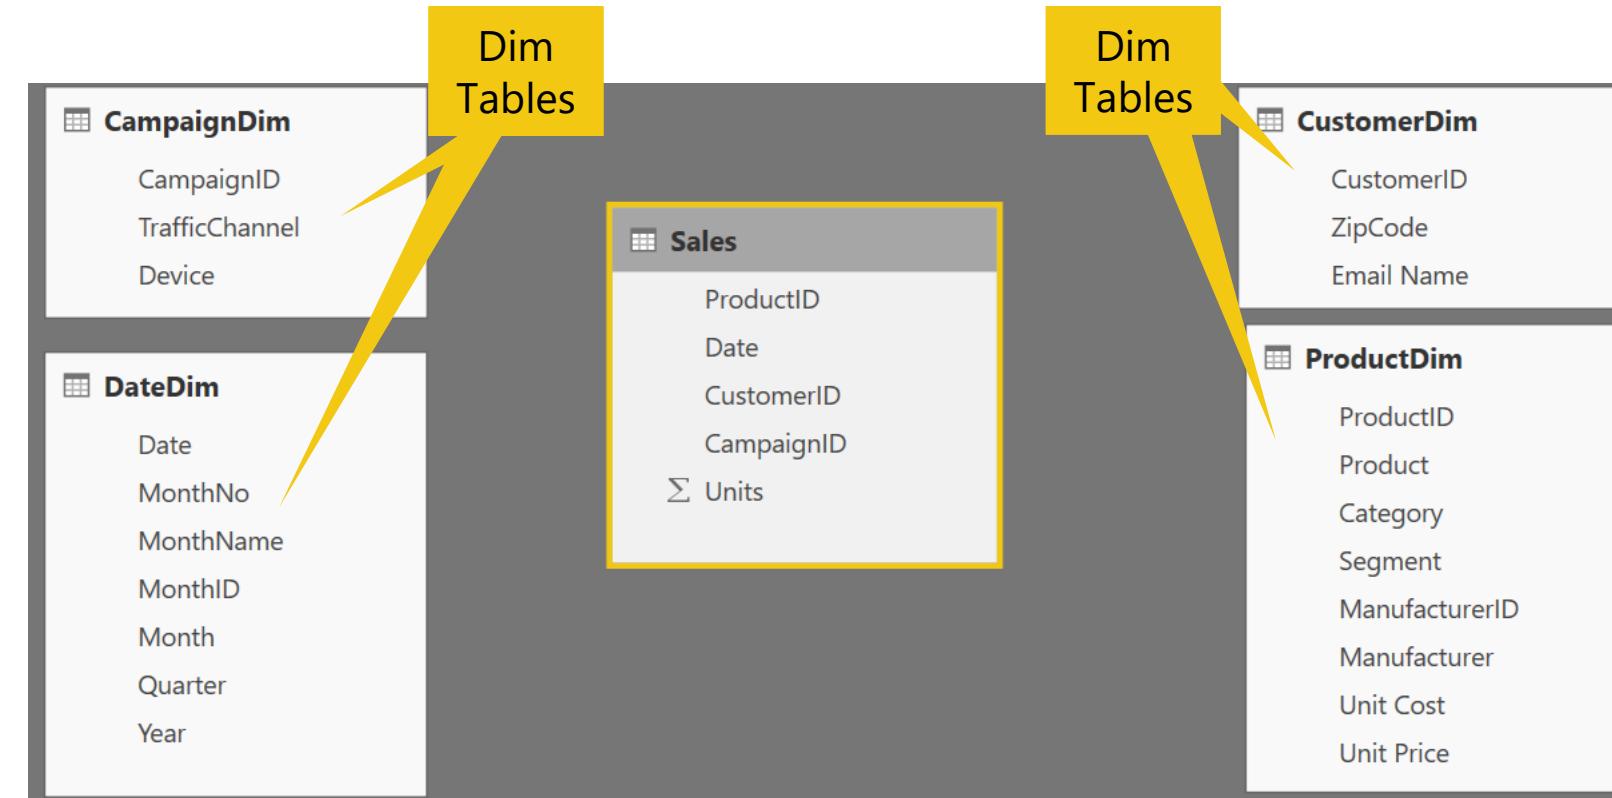

Examples:

- Transactions
 - Sales Revenue
 - Units
 - Cost
-
- Measures are usually sliceable.

Examples: By Month,
By Customer

Components of a data model – Dim Table

Dim Table

A Dim (or Dimension) table contains descriptive attributes that define how a fact should roll up.

Examples:

By month, By Customer, By Geo

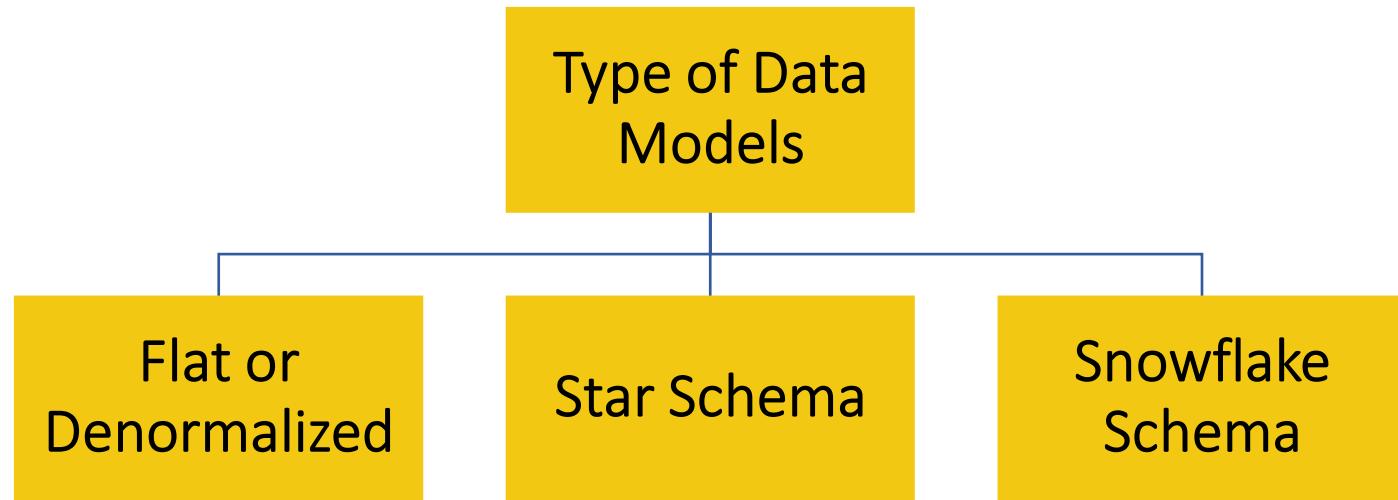

Components of a data model - Relationships

Relationships

- Connection between 2 tables (usually fact & Dim tables) using columns from each
- 3 kinds of Relationships
 - 1 to Many
 - 1 to 1
 - Many to Many
(with a bridge table)

Data Model Brings Facts and Dimensions Together

Note: This is not an exhaustive list, but are the most common model types used by Power BI.

Flat or Denormalized Schema

	1 ² ₃ ProductID	A ^B _C Product	Date	1 ² ₃ CustomerID	A ^B _C Email	A ^B _C Last Name	A ^B _C First Name	A ^B _C Full Name	1 ² ₃ CampaignID	1 ² ₃ Units	1.2 CatSegID

24	615	Maximus UC-80	6/4/2012	191391	Joelle.Lee@xyz...com	Lee	Joelle	Joelle Lee		22	1	10

- All attributes for model exist in a single table
- Highly inefficient
- Model has extra copies of data > slow performance
- Size of a flat table can blow up really quickly as data model becomes complex

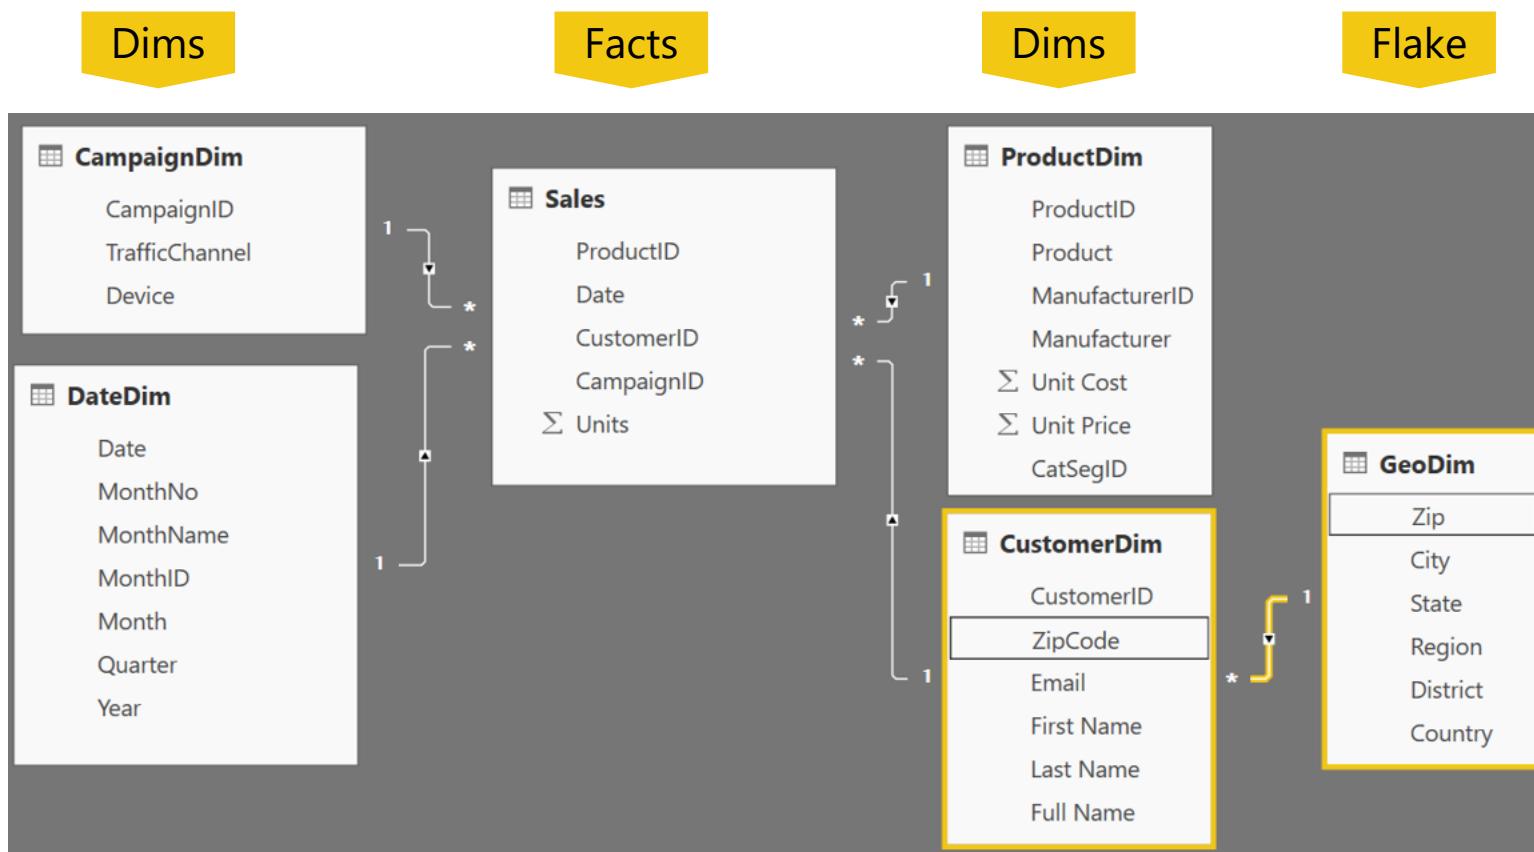

Star Schema

- Fact table in the middle
- Surrounded by Dims
- Looks like a ‘Star’
- Fact table is the “Many” side of the (one to many) relationship

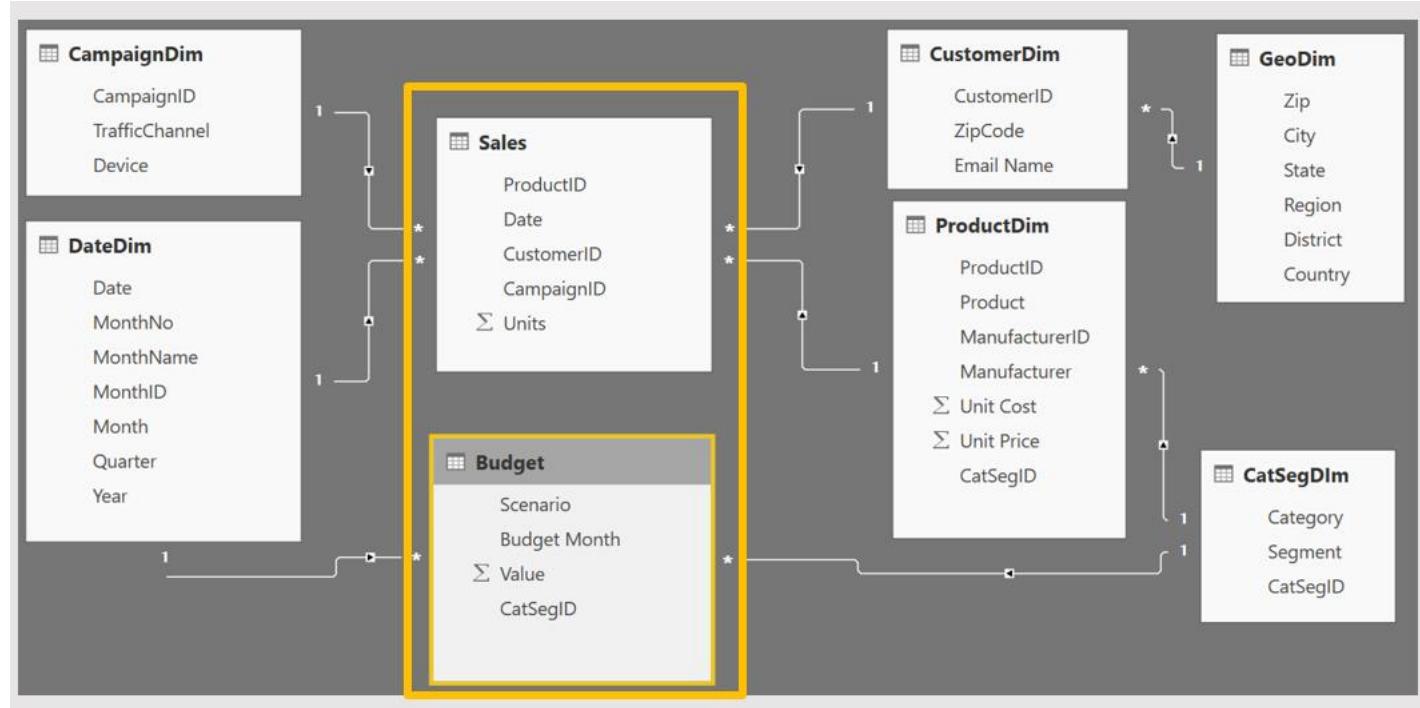

Snowflake Schema

- Center is a Star schema
- Fact table in middle
- Surrounded by Dims
- Dims “snowflake” off of other Dims
- If you have many, it looks like a ‘Snowflake’
- Dim or Fact tables can be the “Many” side of the relationship

Granularity & Multiple Fact Tables

Sales (Daily by Product)

Budget (Monthly by Product Category & Product Segment)

- Grain (**granularity**) measures the level of detail in a table

Example:

One row per order or per Item
Daily or Monthly date grain

- If your facts have **very different granularities**, split them into **Multiple Fact** tables & connect them to shared dimensions at the lowest common granularity.

Power BI Week 3

Use Datamodel from Lesson 1

DEMO

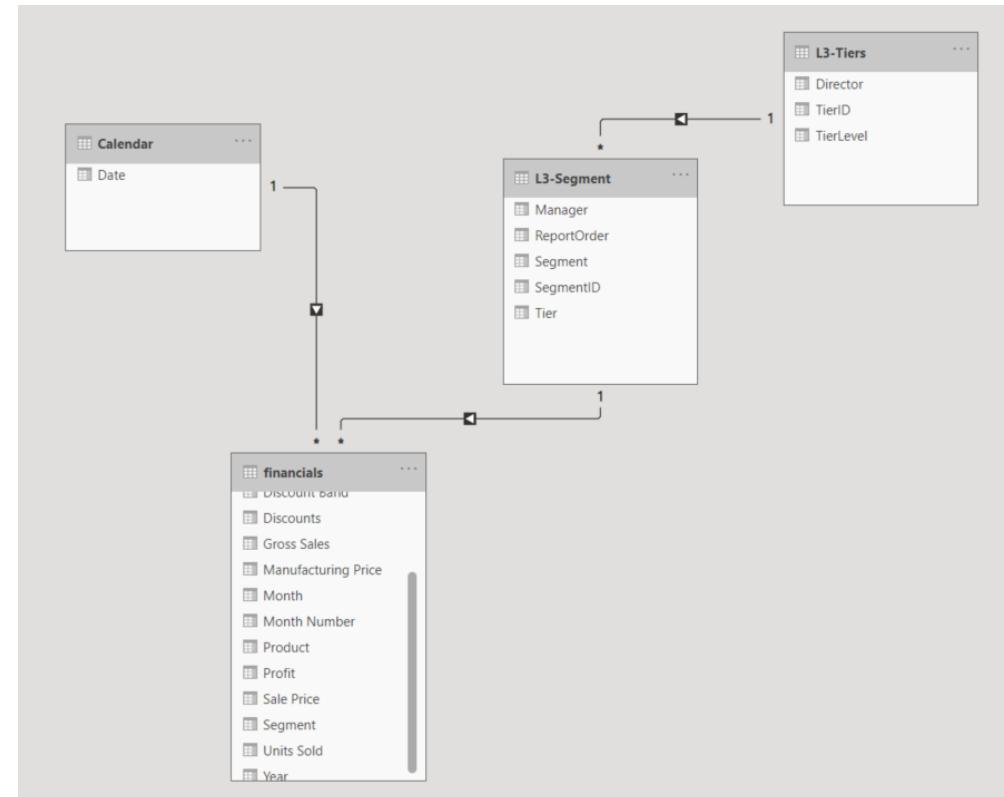

Add Segment & Tiers dimensions

Use web connector with Raw csv url from GitHub

Create Star Schema

Create a report with Dimensional data

Hide related fields in fact [financials](Segment)
& in L3-Segment[Tier]

Segments: <https://raw.githubusercontent.com/wottabyte/PBITraining/master/10WeekPBIonline2021/L3-Segment.csv>

Tiers: <https://raw.githubusercontent.com/wottabyte/PBITraining/master/10WeekPBIonline2021/L3-Tiers.csv>

Power BI Week 3

Intro to DAX – Data Analysis Expressions

DAX is a library of functions & operators

Used to Calculated Columns, Measures & Calculated Tables.

Demo CC : Add to date table from lesson 1

DAX: Year

DAX: Month Number

DAX: FY = "FY" & YEAR('Calendar'[Date])

DAX: mmyyyy = FORMAT('Calendar'[Date], "mmm") & " " &
RIGHT(YEAR('Calendar'[Date]), 2)

Datamodel fix month order by adding month number

Fix mmyyyy order by adding

yyyymm = 'Calendar'[year]*100 + 'Calendar'[month number]

Power BI Week 3

Measures

Measures:

Demo Default summarization then

Demo Measure : Total Revenue = sum of Sales

Demo Calculate : Sales by a fixed Country = “France”

Demo Sales by Country

If time go onto Time Intelligence

Time Intelligence

Demo Sales Previous Year & TOTALYTD & %

More DAX: Userelationships, semi additive,

Use Storyboarding to Design Report Layout

Control this space. If all objects tell the same story, use the same gap space. If some objects tell a different story, make the gap bigger

Storyboarding Tools

The screenshot shows a Microsoft PowerPoint slide with a storyboard template. The slide has four main sections: 'Logo' (containing a bar chart), 'Subject' (containing a map with 'Where?' and 'Who?' callouts), 'When?' (containing a line chart), and 'What?' (containing a solid grey box). To the right of the slide is a large 'Slicers' placeholder. The ribbon at the top has the 'Storyboarding' tab selected. A yellow arrow points from the 'Storyboard Shapes' icon in the ribbon to the open 'Storyboard Shapes' ribbon gallery on the right. The gallery lists various shapes under categories like 'My Shapes', 'Annotation', 'Backgrounds', 'Common', and 'Icons'. A second yellow arrow points from the 'Icons' category to the 'Icons' section of the gallery, which displays a grid of icons including arrows, a calendar, a phone, a camera, a checkmark, a file, a folder, a mail icon, a search icon, and a play button.

Install the Storyboarding Toolbar: <https://docs.microsoft.com/en-us/vsts/work/backlogs/office/storyboard-your-ideas-using-powerpoint>

What is Power BI ?

Power BI Week 5

Add user friendly report navigation features, slicers & tooltips.

Use Power BI features to tell a Story:
So much will split it over 2 weeks

Conditional formatting
Report Navigation with buttons
Drillthrough

Edit interactions
Slicer, filter & sorting

Sync slicers
Bookmark and Selection panel
Custom tooltips

Power BI Week 5

Conditional Formatting

Conditional Formatting – show where and then see other slides for formatting techniques.
Demo on CY-SPLY

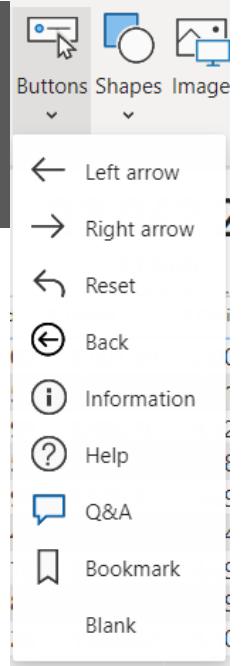

Configure Conditional Formatting

The screenshot shows the 'Background color - SalesAmount' dialog box in Power BI desktop. The dialog includes fields for 'Format by' (Color scale), 'Apply to' (Values only), 'Based on field' (Sum of SalesAmount), 'Summarization' (Sum), 'Default formatting' (As zero), 'Minimum' (Lowest value), 'Maximum' (Highest value), and a color gradient bar. A red arrow points from the 'Advanced controls' section of the dialog to a table visualization on the right. The table has columns 'Region' and 'SalesAmount'. The rows are color-coded: France (green), Germany (red), USA (green), and Total (green). The 'Advanced controls' section in the dialog is highlighted with a red box.

Region	SalesAmount
France	\$1,693,909.04
Germany	\$485,155.88
USA	\$1,250,085.09
Total	\$3,429,150.01

Power BI Week 5

Report Navigation with Buttons

Buttons : feels more like an app

Navigation : story telling good for App like navigation

Selections : hide & view & layer visuals

Demo:

Add a button, change action to 'Navigation' (back, bookmark, drillthrough, navigation, Q&A, weburl)

Advanced bonus : Create a button with measure to drive different page destinations (based on table column & slicer)

<https://docs.microsoft.com/en-us/power-bi/create-reports/desktop-buttons>

Power BI Week 5

Drillthrough

Drillthrough : high level drillthrough of an entity to a detailed report.

Advanced

Cross-report drillthrough (source & target) - configure your report to be the source.

File>Options&Settings>Options>ReportSettings set to 'Allow' visuals in this.....

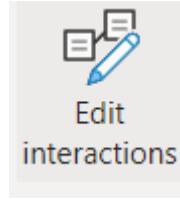

Next in target report set page report settings to Cross Report is On and populate fields value.

User can select Drillthrough : Page Name [Report Name]

Zoom Preparation

Please all turn on your Video Cameras

I will move to next slide

Then David stop sharing screen and record Zoom video cameras

Pantomine banta

David ‘What are you learning ?’

All shoutout ‘ Power BI’

“What do you think of the show so far ?”

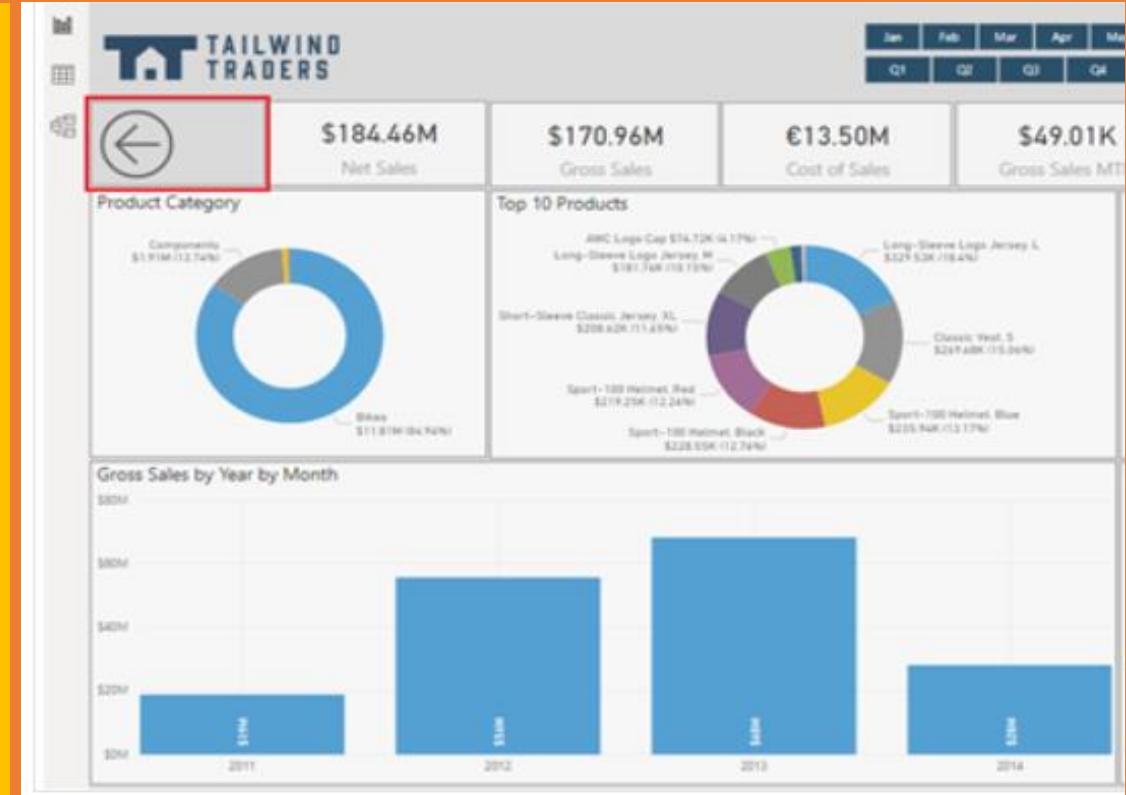

“???”

David share screen again for recording.

POWER BI

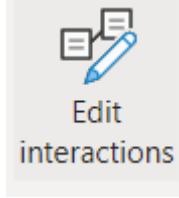

Power BI Beginners 10 week online course with labs

Trainers : David Moss & Conrad Moss

Power BI Week 6

Cross Filtering & Edit Interactions

Demoed last week

1st level of filtering & slicing

Edit Interactions

Configure a report with some slicers slicing right of page (detail) but not left of page (summary)

Power BI Week 6

Slicer, Filter & Sorting

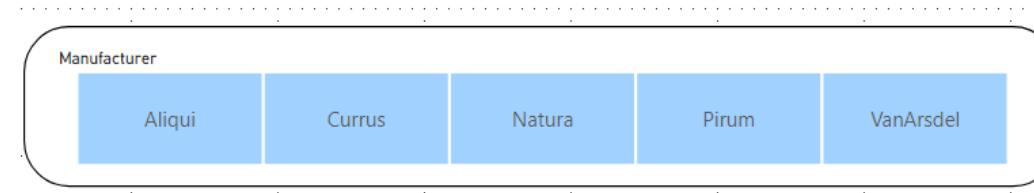

Slicing Filtering & Sorting : Use features in unison to achieve perfect results.

Filter in Power Query editor

Filtering : remove data see Filter pane – also in report in cloud

Slicer : slice data on canvas

Sorting : visuals

Demo

Slicer formatting for text or values slicers; dropdown, search , slider. Format single, multi all select.

Custom slicers: chiclet slicer

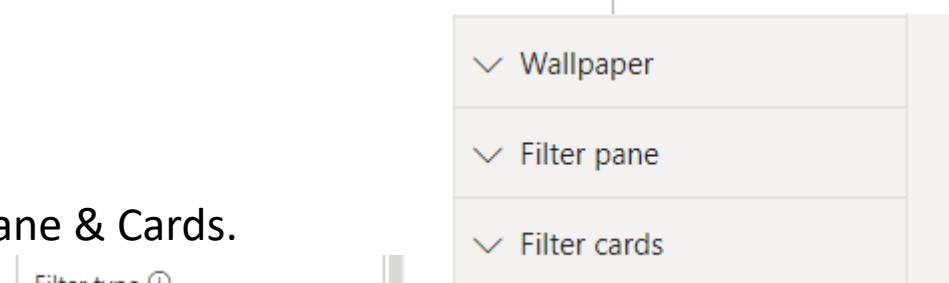

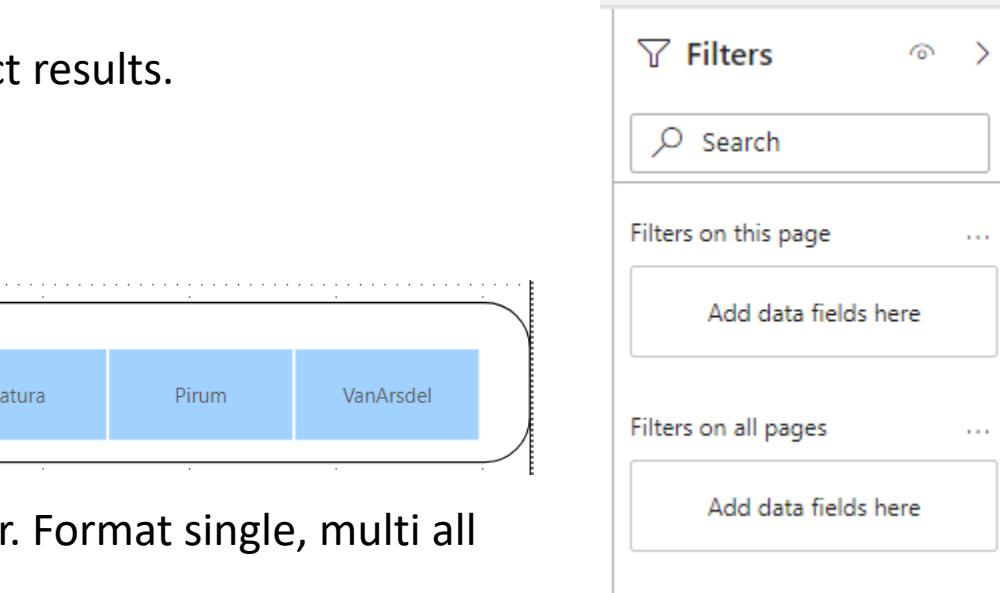

Sliding slicers with Bookmark technique.

Filters Pane: show hide, lock preselect, basic OR advanced, Filter Pane & Cards.

Filters on this visual, on this page, all pages. : Filters Drillthrough

Filter : basic, advanced , TopN (text based on values)

Sort : ascending descending, field from Top right of a visual

Power BI Week 6

Report Options

Configure report Options

Query Reduction techniques

Add apply button

Options

DirectQuery
R scripting
Python scripting

DirectQuery
Query reduction
Report settings

Reduce number of queries sent by

Disabling cross highlighting/filtering by default

Slicers

- Instantly apply slicer changes
- Add an Apply button to each slicer to apply changes when you're ready

Filters

- Instantly apply basic filter changes
- Add Apply buttons to all basic filters to apply changes when you're ready
- Add a single Apply button to the filter pane to apply changes at once

Power BI Week 6

Sync Slicers

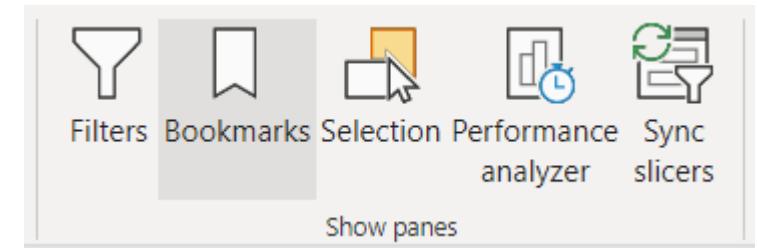

Sync Slicers across pages

Similar to slicer on Report level filter for All Pages. Yet can configure by slicer & by report page .

Demo: Use Director or Manager

Idea: Master front slicer page for all pages in report

Page name	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Lesson1	<input type="checkbox"/>	<input checked="" type="checkbox"/>
L1-test	<input type="checkbox"/>	<input checked="" type="checkbox"/>
L1-Line	<input type="checkbox"/>	<input checked="" type="checkbox"/>
L3-Managerial	<input type="checkbox"/>	<input checked="" type="checkbox"/>
L3-SortDataModel	<input type="checkbox"/>	<input checked="" type="checkbox"/>
L3-CalculateAll	<input type="checkbox"/>	<input checked="" type="checkbox"/>
L3-TimeIntelli... L4	<input type="checkbox"/>	<input checked="" type="checkbox"/>
L5 CondFormat-B4 L5-CondFormat-...	<input type="checkbox"/>	<input checked="" type="checkbox"/>
L5-navigation	<input type="checkbox"/>	<input checked="" type="checkbox"/>
L5-DrillThrough Drillthrough Target	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Q&A-DetailedPage	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Page 1	<input type="checkbox"/>	<input checked="" type="checkbox"/>
WB	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Page 2	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Power BI Week 6

Hierarchy Slicing

Use hierarchies on report to drive detail interactions

Explain hierarchy icons on a visual

Drill down hierarchy and use for granular detail slicing (needs a good end user)

Click ctrl & select to get a even more granular slice to find that detail or even outlier

Power BI Week 6

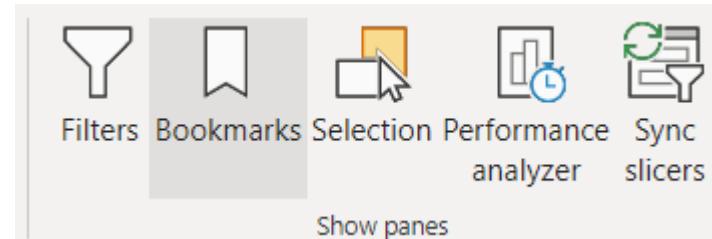

Bookmarks & Selection panel

Bookmark like navigation but good for on same page changes

Bookmark panel : story telling good for .PPT also for App like navigation

Selection panel : hide & view visuals

Demo:

Take a bookmark

Add a button, change action to 'Bookmark' (back, **bookmark**, drillthrough, navigation, Q&A, weburl)

Do bookmark to switch between donut and table on same page.

Remember sliding slicer bookmark technique V Filter Pane

Copy pages then pre select filters for storytelling eg 1 page France sales, next page UK sales.

Then Show bookmarks in the Power BI service as if though a boardroom presentation.

Just feels better than navigating pages of reports

Power BI Week 6

Custom Tooltips

Custom Tooltips

Demo How to Build a custom tooltip

Custom tooltips (1:Page info, 2: Page Size,
3:PageView>actual 4:Field driver)

Publish & share Power BI reports & dashboards

MONDAY 1st MARCH 17:00 GMT

Power BI Week 7

Publish , Share PBI reports, dashboards, Power BI service & mobile features

Combined here in week 7 the original week 6 curriculum & Week7's.

Because remember we split the original week 5 user friendly reports over both week 5 & week 6 and moved the original week 6 content into week 7 as makes an easier balance of content.

Agenda:

Publish & Share Power BI Reports

Power BI Dashboards

Power BI Service Edit report in cloud

Mobile reporting & Mobile App

Power BI Workspace apps (Different to Mobile app)

Power BI Service other features

If time go back over custom tooltips from last week.

Power BI – LESSON 7 of 10

beginners free 10 weeks online training course

Power BI Week 7

Publish & Share Power BI Reports

Open .pbix

Save file on landing (opening) page

Publish to cloud

Use Wottabyte workspace called : DA-100

Get Quick Insights !!

Share reports to user (colleagues same tenant, external users)

End user can check 'Shared with me'

Publish to Web

Share url for all to see on public internet

Interact with report in PBI Service.

The screenshot shows the Power BI service interface with the following components:

- Left Sidebar:** Includes links for Home, Favorites, Recent, Create, Datasets, Apps, Shared with me, Deployment pipelines, Learn, and Workspaces.
- Top Bar:** Shows the workspace name "Power BI DA-100 2021" and the report title "L6-ExecutiveSummaryV2".
- Report View:** Displays a list of pages: L3-SortDataModel, L3-CalculateAll, L3-TimeIntelligence, and L4.
- Share Menu:** A dropdown menu under the "Share" button with options: Report, Embed report, SharePoint online, Website or portal, and Publish to web (public). The "Publish to web (public)" option is highlighted with a red arrow.
- Success Message:** A modal window titled "Publishing to Power BI" with a green checkmark icon and the message "Success! Open 'L6-ExecutiveSummaryV2.pbix' in Power BI".
- Replace Dataset Confirmation:** A modal window titled "Replace this dataset?" with information about replacing an existing dataset named "L6-ExecutiveSummaryV2". It includes a "Cancel" button and a link to "View the impact of this change on the content in the Power BI service".
- Cloud Publishing Progress:** A progress bar at the top of the slide indicating "Publishing 'L6-ExecutiveSummaryV2.pbix' to Power BI".

Power BI Week 7

The 'VIDEOS' tab is selected, showing a grid of six video thumbnails. The first video is titled '4/10 Power BI Beginners Coursework Lesson 4' and has 18 views. The second video is 'Lesson 4 - Power BI Beginners Online Training...' with 24 views. The third is '3/10 Power BI Beginners Coursework Lesson 3' with 27 views. The fourth is 'Lesson 3 - Power BI Beginners Online Training...' with 52 views. The fifth is 'PL-900 Power Platform Fundamentals' with 24 views. The sixth is 'DA-100 ANALYZING DATA MICROSOFT POWER BI Learning Materials' with 44 views. Each thumbnail includes the video title, duration, and view count.

Power BI Beginners Training 2021 Lesson 1 - 10
wottabyte - 1/9

This screenshot shows a video player interface for a specific lesson. The title is 'Power BI Beginners Training 2021 Lesson 1 - 10'. The video thumbnail shows a Microsoft Power BI interface with several charts. The play button is visible, along with a timestamp of '1:04:05'. Below the video are several other video thumbnails from the same series, each with a number (1 through 10) and a brief description. The descriptions include 'Power BI Beginners Online Training 2021 Lesson 1 of 10', 'Power BI Beginners Course Lesson 1 of 10 Coursework', 'Power BI Beginners Course Lesson 2/10 Coursework', 'Lesson 2 - Power BI Beginners Online Training 2021', 'DA-100 Power BI learning material', and 'Lesson 3 - Power BI Beginners Online Training 2021'. Each thumbnail includes the video title, duration, and view count.

Workshop this eve at 21:00 – 22:00 GMT

Monday 1st March 2021

- **Q&A Workshop 7 - Power BI Beginner Training**
- <https://www.meetup.com/The-Power-BI-Apprentice/events/276482399/>

Power BI

beginners free 10 weeks online training course

- Week 1: Monday 18th Jan 2021 : Introduction to Power BI and your first Power BI report.
- Week 2: Monday 25th Jan 2021 : Use Power Query Editor to get data & prepare your data.
- Week 3: Monday 1st Feb 2021 : Use Power BI desktop to structure & create datamodels.
- Week 4: Monday 8th Feb 2021 : Design & configure Power BI visuals like charts, maps & KPIs.
- Week 5: Monday 15th Feb 2021 : Add user friendly report navigation features, slicers & tooltips.
- Week 6: Monday 22nd Feb 2021: More user friendly reports : Power BI slicers, bookmarks & custom tooltips
- Week 7: Monday 1st March 2021: Publish & share Power BI reports & dashboards & Get to grips with Power BI cloud service & mobile features.
- Week 8: Monday 8th March 2021: Enhance your data with DAX for KPIs reporting & visualizations
- Week 9: Monday 15th March 2021: Data analytics reporting & AI features in Power BI.
- Week 10: Monday 22nd March 2021: Power BI at work with workspaces, datasets & security.

NEXT WEEK : Power BI Week 8

8th March

DAX for KPIs & more reporting & visualization features.

Watch email & social media channels when event goes live 2 register.

Power BI Week 8

Power BI & Excel

In Excel

Get Data is Power Query in Excel 2016 native on Ribbon in Data tab (Excel 2010 addin)

Use web connector to Demo csv from

<https://raw.githubusercontent.com/wottabyte/PBITraining/master/PBIDSAI/FabrikamComments.csv>

in Ribbon for Excel PowerPivot (Datamodel) is similar to Power BI datamodelling – (Com Add-in) – add table to Datamodel

In excel Publish content into PowerBI- How?

Export excel into Power BI Desktop – as a dataset

but best to Upload excel into Power BI Service then pin from excel online in Power BI

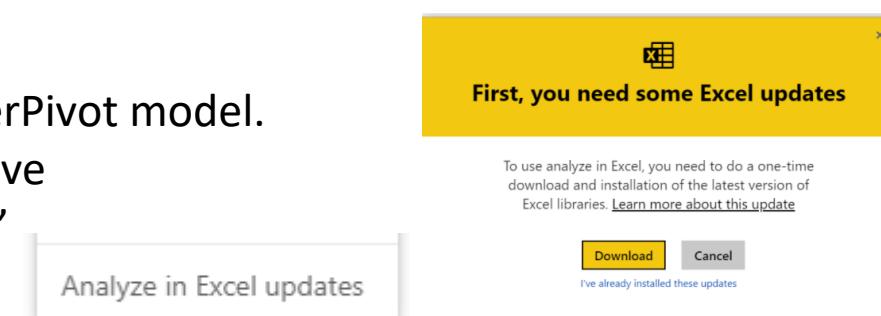

In Power BI

In Power BI Desktop Import/upload an Excel PowerPivot model.

In Power Bi Service Get data > Files > local or 1 Drive

In Power Bi Service from a report ‘Analyze in Excel’

In power BI Service table ‘Export Data’

- Select a table –
- Use Properties pane
 - **Is featured table**

Bonus

In Excel connect to PowerBI certified Datasets & Power BI Featured Tables

OneDrive for Business

Choose how to connect to your Excel workbook

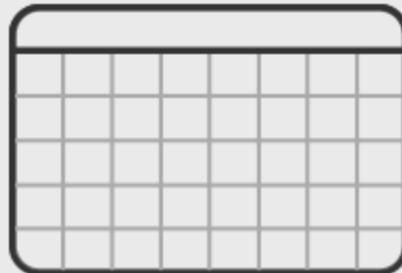

Import Excel data into Power BI

Connect to the data in your workbook on OneDrive so you can create Power BI reports and dashboards for it. Data is automatically refreshed from OneDrive.

Import ➔

or

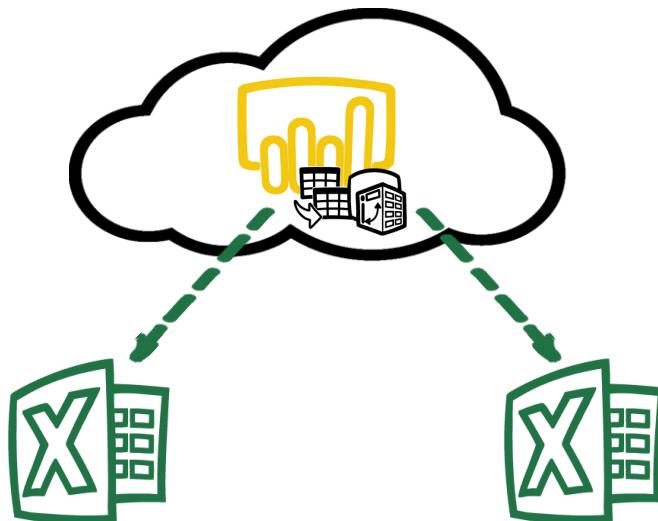

Connect, manage, and view Excel in Power BI

Bring your Excel workbook into Power BI and see it exactly as it is in Excel Online - charts, PivotTables, worksheets, and all. Then keep your workbooks up to date with scheduled refresh.

Connect ➔

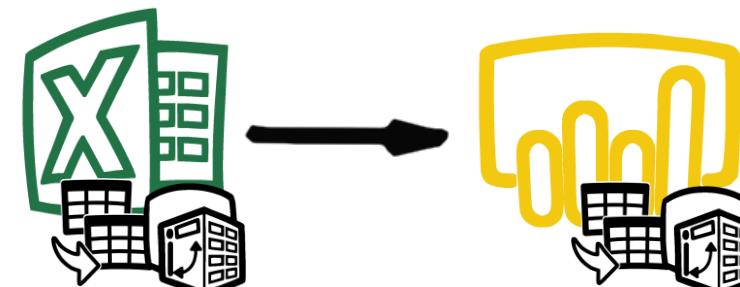

Better Together

"And" is better than "Or"

**Publish to Power BI Service
-> Analyze in Excel**

**Initial development in
Excel -> Convert to Power BI**

**Use Excel to collect and
collaborate on source data**

Power BI Week 8

Power BI & Excel

<https://powerbi.microsoft.com/en-us/excel-and-power-bi/>

<https://docs.microsoft.com/en-us/power-bi/collaborate-share/service-analyze-in-excel>

PBI to Excel :

Export data to excel : underlying or summarised csv (30,000) & excel (150,00)

Analyze in Excel : PivotTable in excel connected to dataset

Get data from Excel

<https://docs.microsoft.com/en-us/power-bi/connect-data/service-excel-workbook-files>

Excel & Power BI

<https://powerbi.microsoft.com/en-us/excel-and-power-bi/>

Power BI Week 8

Power BI Premium & Pricing

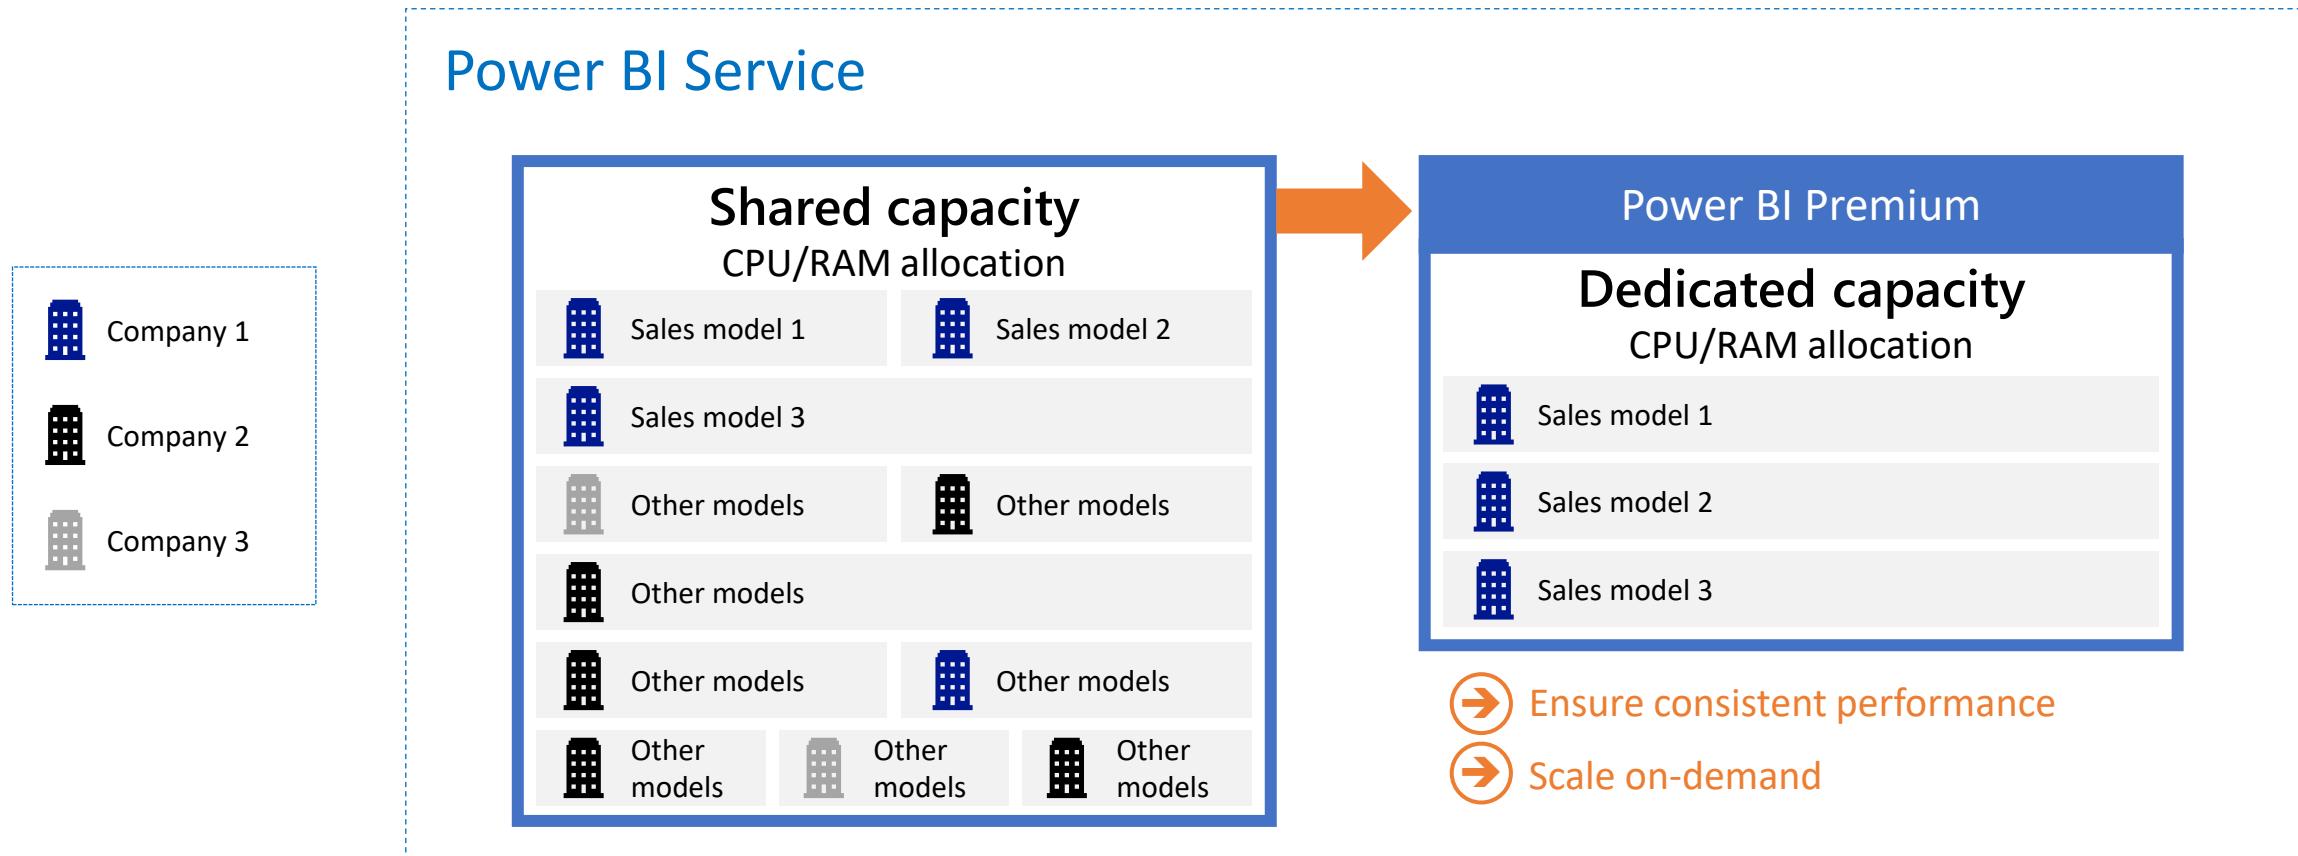

Flying intro to Power BI Premium

<https://powerbi.microsoft.com/en-us/pricing/>

Assign workspaces to your dedicated capacity

Premium workspaces running on dedicated hardware

Models run on distributed hardware
servicing multiple tenants

Power BI Premium Top 5 Points

Dedicated Capacity

Enhance performance by moving workspaces to dedicated hardware

Increased Memory

Increase model memory from 1GB to 10GB. Premium Gen2 with autoscale.

Increase user access

Users wont need a Pro license to view reports

SSRS Integration

Integrate SSRS reports into Power BI

More Big Data Friendly

Improve refreshing, incremental refresh

AI & AutoML features, XMLA, Deployment pipelines.

Power BI Week 8

Settings

Demo adding Land as Country

Ask a question about your data

Try one of these to get started

top countries by total sales

what is the total sales by country

what is the sales QTD by country

what is the sales QTD by discount band

Getting started

- Q&A setup
- Getting started
- Field synonyms
- Review questions
- Teach Q&A
- Manage terms
- Suggest questions

Field synonyms

Add terms people might use as synonyms for the fields and tables in your data.

Field synonyms

Review questions

Review questions people have asked and fix misunderstandings.

Review questions

Teach Q&A

Teach Q&A to understand questions and terms people might use.

Teach Q&A

Suggest questions

Help people explore your data by adding suggested questions.

Suggest questions

Power BI Week 9

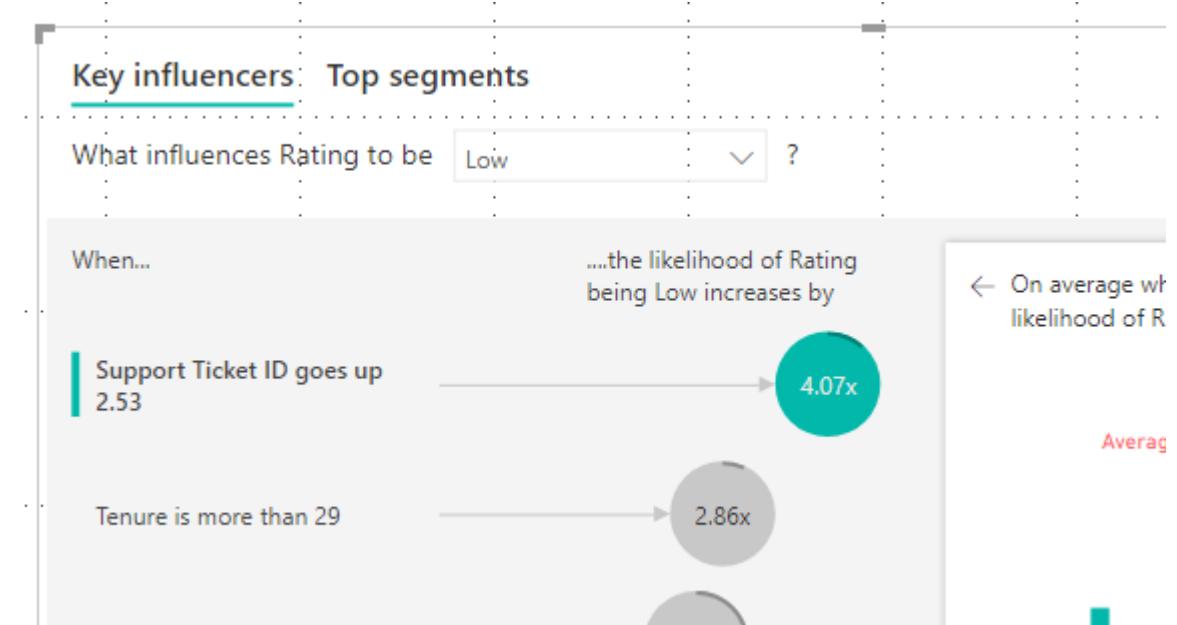

AI Visuals – Key Influencers

Key Influencers
understand factors that drive a metric
Contrast relative importance of the factors

Demo

- 1: add fields to Key Influencer
- 2: Interact add a slicer 'company Size'
- 3: Add support Ticket id as 'count'
- 4: Top Segments
- 5: Enable counts
- 6: Sort by counts
- 7: Add Device many to 1 will break at Customer granular analyses, but OK as count

Expand by for more granular analysis but not influencers
Built on ML.NET

Key Influencers: <https://docs.microsoft.com/en-us/power-bi/visuals/power-bi-visualization-influencers>
Demo uses a .pbix you can download called customerfeedback.pbix

Power BI Week 9

AI Visuals – Decomposition Tree

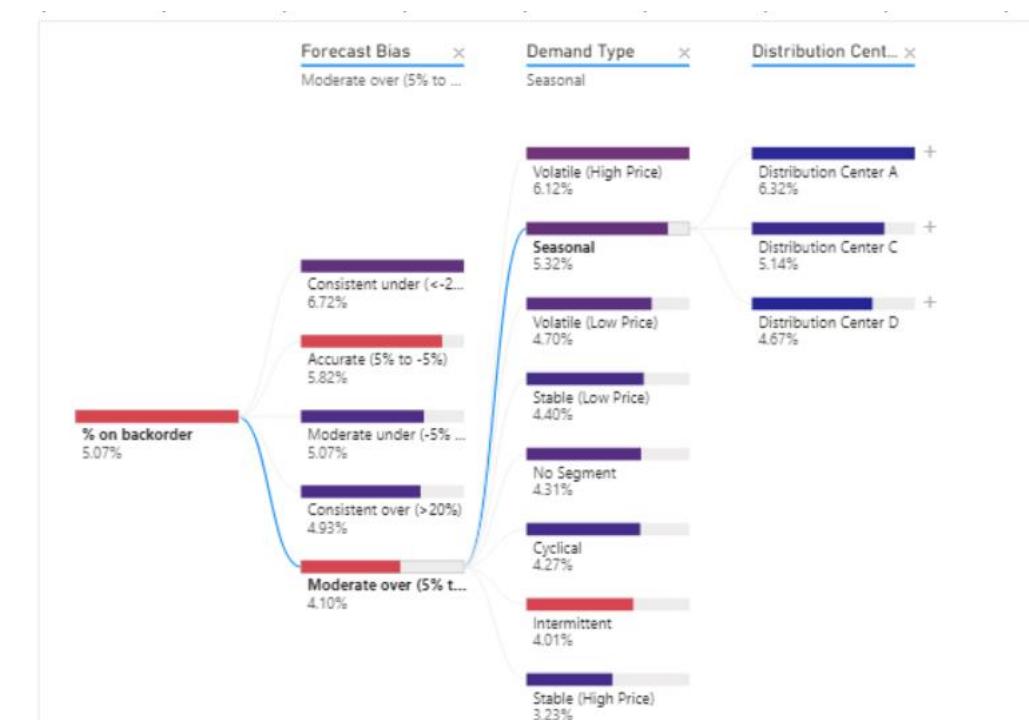

Decomposition Tree Root Cause Analysis

Supply Chain Sample

- 1: add fields | % of backorder | dimensions
- 2: expand tree
- 3: change tree direction by selecting middle tier node
- 4: select last level node to cross filter
- 5: AI splits high or low | AI bulb | absolute v relative
- 6: Locking levels

Tree branches <=10

Decomposition Tree: <https://docs.microsoft.com/en-us/power-bi/visuals/power-bi-visualization-decomposition-tree>

Power BI Week 9

Python & R Visuals

R or Python visuals

R CRAN IDE Rstudio r dataframe

Datasource in PQE as a R script

During PQE use R

Add an R visual

Use R IDE

Also import R & Python custom visuals

Python Anaconda pandas dataframe

Datasource in PQE use a Python script

During a PQE use a Python script

Add a Python visual in PBI desktop

<https://docs.microsoft.com/en-us/power-bi/connect-data/desktop-python-scripts>

Python configuration

- Download latest v3.9 python www.python.org
- Anyone using Anaconda ?(conda)
<https://www.anaconda.com/distribution/>
- Cmd line > py --version
- Power BI configure python path in Options
- Configure IDE
- Download Visual Studio Code IDE
- <https://code.visualstudio.com/>

Setup was successful

Special thanks to Mark Hammond, without whose years of freely shared Windows expertise, Python for Windows would still be Python for DOS.

New to Python? Start with the [online tutorial](#) and [documentation](#).

See [what's new](#) in this release.

Python Releases for Windows

Detected Python home directories:

Detected Python IDEs:

Learn more about Python IDEs

Change temporary storage location

Note: Sometimes, Python custom visuals automatically install additional packages. For those to work, the temporary storage folder name must be written in Latin characters (letters in the English alphabet).

Auto ML

ENTITY TYPE	ACTIONS
Custom	

New to machine learning models? Here's what you'll be doing:

1. Create and train your model

Select training data

Select your base data and related inputs to train your model.

Choose a model type

We'll help you pick the best model to achieve your business goals.

Train your model

The model will train on your data and report on its performance.

2. Improve it

Iterate and retrain

Evaluate, customize and retrain your model until it's optimized

Apply the model

Apply your model to future data for predictive insights.

Get started

Power BI Week 9

OOTB KPI visuals

OOTB – Out of The Box
Box & Whisper
SPC

Box and Whisker chart by MAQ Software...
Display data distribution quartiles in a box plot.

Add

Box and Whisker chart
Visualize a dataset in an effective way as a five-number summary (mean, median, quartiles, min/max)

Add

SPC C Chart
The only NHS Improvement and IHI SPC rules compliant solution for Power BI.
[May require additional purchase](#)

Add

Individuals Control Chart by PQ Systems
An SPC chart for analysis of process stability where the sample size is one.
[May require additional purchase](#)

Add

SPC visualizations & Control Charts

LCL & UCL 3 Sigma

- LCL = [MeasureAggregation] – 3*[Std Dev]
- UCL = [MeasureAggregation] + 3*[Std Dev]

PQ Systems

Process Improvement (PI) VIZpack includes all of these visuals for Power BI:

 Individuals Control Chart Analyze process stability for a process with a subgroup size of one.	 Individuals and Moving Range Control Chart Analyze process stability and variability for a process with a subgroup size of one.	 X-Bar Control Chart Analyze process stability for a process with a subgroup larger than one.	 X-Bar and Range Control Chart Analyze process stability and variability for a process with a subgroup larger than one.
 Histogram Visualize the distribution of data as well as capability indices such as Cpk, Ppk, & Dpm.	 P-Chart Analyze a count of nonconforming (defective) units where the subgroup size varies.	 U-Chart Assess the count of nonconformities (defects) per unit where the subgroup size varies.	 Multi-Group Individuals Chart Easily identify which segments in your process are introducing exceptional variation.

<https://youtu.be/dW08MYqbJ7k>

The screenshot shows the YouTube channel page for 'wottabyte'. The channel logo features a stylized bar chart icon. The channel name 'wottabyte' is displayed in large, bold, dark blue letters, with the tagline 'your data partner' in orange below it. The subscriber count is listed as 64. Navigation links include HOME, VIDEOS, PLAYLISTS, CHANNELS, DISCUSSION, ABOUT, and a search icon. Below these are buttons for CUSTOMISE CHANNEL and MANAGE VIDEOS. The 'VIDEOS' tab is selected, showing a grid of six video thumbnails. The first video is titled '4/10 Power BI Beginners Coursework Lesson 4' and has 18 views. The second video is 'Lesson 4 - Power BI Beginners Online Training...' with 24 views. The third is '3/10 Power BI Beginners Coursework Lesson 3' with 27 views. The fourth is 'Lesson 3 - Power BI Beginners Online Training...' with 52 views. The fifth is 'PL-900 Power Platform Fundamentals' with 24 views. The sixth is 'DA-100 ANALYZING DATA MICROSOFT POWER BI Learning Materials' with 44 views. Each thumbnail includes the video title, duration, and view count.

Power BI Beginners Training 2021 Lesson 1 - 10
wottabyte - 1/9

This screenshot shows a video player interface for a specific lesson from the 'Power BI Beginners Training 2021' series. The video title is 'Power BI Beginners Training 2021 Lesson 1 - 10'. The video duration is 1:04:05. The player controls include a play button, volume, and progress bar. Below the video, there are several other video thumbnails from the same series, each with its title, duration, and view count. The titles include 'Power BI Beginners Online Training 2021 Lesson 1 of 10', 'Power BI Beginners Course Lesson 1 of 10 Coursework', 'Power BI Beginners Course Lesson 2/10 Coursework', 'Lesson 2 - Power BI Beginners Online Training 2021', 'DA-100 Power BI learning material', and 'Lesson 3 - Power BI Beginners Online Training 2021'. Each thumbnail also includes the 'wottabyte' channel name.

Workshop this eve at 21:00 – 22:00 GMT

Monday 15th March 2021

- **Q&A Workshop 9 - Power BI Beginner Training**
- <https://www.meetup.com/The-Power-BI-Apprentice/events/>

Lesson 9 of 10 Power BI Beginner

Data Analytics & Power BI AI features with PowerBI.ai

CourseWork Explained

Power BI

beginners free 10 weeks online training course

- Week 1: Monday 18th Jan 2021 : Introduction to Power BI and your first Power BI report.
- Week 2: Monday 25th Jan 2021 : Use Power Query Editor to get data & prepare your data.
- Week 3: Monday 1st Feb 2021 : Use Power BI desktop to structure & create datamodels.
- Week 4: Monday 8th Feb 2021 : Design & configure Power BI visuals like charts, maps & KPIs.
- Week 5: Monday 15th Feb 2021 : Add user friendly report navigation features, slicers & tooltips.
- Week 6: Monday 22nd Feb 2021: More user friendly reports : Power BI slicers, bookmarks & custom tooltips
- Week 7: Monday 1st March 2021: Publish & share Power BI reports & dashboards & Get to grips with Power BI cloud service & mobile features.
- Week 8: Monday 8th March 2021: Enhance your data with DAX for KPIs reporting & visualizations, Excel & Premium.
- Week 9: Monday 15th March 2021: Data analytics reporting & AI features in Power BI.
- Week 10: Monday 22nd March 2021: Power BI at work with workspaces, datasets & security.

Power BI Enterprise Sharing

- Workspaces & Apps
- Workspace for either group, dev, prod, subject, department
- Team of developers edit in workspace
- Create & share APP

Power BI Week 10

Workspaces

Demo slide with Workspace apps etc

Create a Workspace; Type 1 v Type 2 | add users | 4 roles | emails, DLs, SGs, M365Groups.

Show workspace settings * during config; Premium | 1 Drive (MS365group) | Template app

After created configure workspace settings : | Azure | admin

Workspace New+ | Get Data |

Create App | Setup | Navigation | Permissions

Workspace report : View usage metrics – remove filters then works for workspace.

Lineage View | Dataset see Impact Analysis |

The screenshot shows the Power BI workspace management interface. On the left, there's a sidebar with a 'Create a workspace' button and a 'New' dropdown. Below that is a 'Create a pipeline' button. The main area has a 'View' dropdown, 'Settings' (which is currently selected), 'Access', and a '...' button. The workspace name 'DA-100 2021 10 week DEV' is displayed. Below the workspace name are links for 'About', 'Premium', and 'Azure connections (preview)'. At the bottom, there are two large yellow buttons: 'Create app' and 'Update app'. A blue navigation bar at the very bottom includes 'Setup' (which is selected), 'Navigation', and 'Permissions'.

Create a workspace

+ New ▾ Create a pipeline

View

Settings Access ...

About Premium Azure connections (preview)

Create app Update app

Deployment pipelines - Premium

Setup Navigation Permissions

Power BI Week 10

Datasets

1 report published = 1 dataset & 1 report

Dataset Settings v Workspace Settings v General Workspace settings

Gateway

Schedule refresh

Manage & promote datasets | integrity | Endorsement>Promoted & Certified(cation)

Incremental refresh

Build Permissions : 1 dataset – sharing build permissions = multiple reports

Parameters :use Dev/Test/Prod server parameter | also with Deployment Pipelines

‘What if’ parameters we did previously.

Power BI Week 10

Power BI On Premises Data Gateway OPDG

OPDG : personal v Organization mode
Preview Vnet Gateway for Azure

Install OPDG on server
Manage OPDG from PBI Service

Power BI Week 10

Datasets refresh

Dataset > Settings > Schedule refresh

Configure OPDG, refresh, time slots, see 'Next Refresh'

On demand refresh

Check refresh history for errors

Incremental refresh (was Premium): RangeStart & RangeEnd (date:time)

<https://docs.microsoft.com/en-us/power-bi/admin/service-premium-incremental-refresh>

The screenshot shows the Power Query Editor interface. The ribbon has 'File', 'Home', 'Transform', 'Add Column', 'View', 'Tools', and 'Help'. The 'Data Sources' tab is selected. The 'Manage Parameters' button on the ribbon is highlighted with a red box. In the main area, there's a 'Queries [4]' list on the left with 'FactInternetSales', 'DimCustomer', 'DimDate', 'DimProduct', 'RangeStart (12/1/2018...)', and 'RangeEnd (1/1/2020...)'. On the right, there's a 'Manage Parameters' dialog with a 'New' button. It lists 'RangeStart' and 'RangeEnd' parameters. 'RangeStart' is set to 'is after or equal to' and 'RangeEnd' is set to 'is before'. Both have dropdown menus and 'RangeStart' has a 'RangeStart' button. Below these are sections for 'Required', 'Type' (Date/Time), 'Suggested Values' (Any value), and 'Current Value' (1/1/2020 12:00:00 am).

Filter Rows

Basic Advanced

Keep rows where 'OrderDate'

is after or equal to RangeStart

And Or

is before RangeEnd

Incremental refresh

You can improve the speed of refresh for large tables by using incremental refresh. Once you've published a report to the Power BI service, you can enable incremental refresh for a table.

Once you've deployed this table to the Power BI service, you can enable incremental refresh in Power BI Desktop. [Learn more](#)

Table Incremental refresh

FactInternetSales On

Store rows where column "OrderDate" is in the last:

5 Years

Refresh rows where column "OrderDate" is in the last:

10 Days

Detect data changes [Learn more](#)

Only refresh complete days [Learn more](#)

Power BI Week 10
